

The Evening Bulletin.

With which is incorporated the "Independent."

DANIEL LOGAN, Editor.

THURSDAY, - OCT. 24, 1895.

As the BULLETIN predicted, the filibuster base is working toward Sab's Island. It was last heard of in Quebec. Another quick shift must be made to anticipate the close of navigation in the St. Lawrence.

It is some satisfaction to know that Marsden's pets have taken kindly to our climate. If they will only take as kindly to mosquitoes and beetles, Commissioner Marsden will deserve well of the country of his adoption.

Japan, from sending her people abroad to be educated, is now receiving the children of her neighbors for education. Two Korean lady students lately arrived in Tokyo, attracting much curiosity and attention.

An investigation into earthquakes is being made by the Imperial University in Tokyo. A boring for the purpose had reached 1200 feet in depth early in September. It is not yet reported whether any quakers have been struck.

What good does it to the Government for papers to prejudice the cases of the claimants for damages in connection with the January affair? If the adjudication of the cases lay entirely in Hawaii, local papers would be liable for contempt of court for such conduct.

It has been put forth in various prints that claims of foreigners for false imprisonment in January could not be entertained by foreign governments until all lawful resources in Hawaii had been exhausted. Those who talk in this way forget or never have learned that every avenue of recourse in Hawaii has been closed by a special law enacted for that purpose.

In discussing the employment of teachers from other States in California institutions the San Diego Union strikes a keynote when it says:

"The practice of importing teachers for the public schools is much too common in California cities. In San Diego among the rest. It is objectionable in many respects. It is unfair to those who have been educated in the schools here and desire to remain in them as instructors. Most of the best educators will admit, too, that it is not for the best interests of the schools. No doubt the imported teachers are competent and efficient, but is it justice to some people, who pay for the support of the schools, to send away for teachers and force the local teachers to go from home to find positions?"

There is much food for thought in the above that our own Board of Education might assimilate into their "gray matter" with advantage to themselves, the general public and the children.

Newspapers in Japan are discussing the effect upon China of the late war in disappointed tones. They say the war has had an exactly opposite result to that which had been expected. "While the war was in progress," one journal says, "the Japanese hoped that, after the conclusion of hostilities the Chinese would open their eyes to the actual state of affairs, and, recognizing the needs of their country, would be more friendly to Japan than formerly. But the result is that they are more soundly asleep than ever, and, instead of coming into closer relations with Japan, they

have allowed themselves to fall into the hands of Russia. Thus, instead of increasing the security of the peace of the East, the late war has created a new danger. Japan has only obtained one or two tenths of her original object, and unless she be wise she is in danger of losing what little she has got."

It will be pleasant to record that no injury to the public health has resulted from the discharge of shrapnel at Lele. None the less was it the privilege of residents of the locality, who anticipated a nuisance, together with others who feared danger, to protest against the work. It does not seem at all bright, either, to boast of immunity for only two days of the process.

OPINION ON THE STEAMER.

The Pope on the Big Liner Evidently Manufactured in Chinatown.

The wrath of the powers at Washington, administered through the Federal powers at San Francisco, is likely to be visited upon some one in the employ of the Oceanic Steamship Company at any moment, says the San Francisco Bulletin of October 15. The lightning may not strike high officials of the steamers between this port and Honolulu, but it is going to hit some one. The seizure of \$3,700 of opium on the Australia the last time the vessel was in Honolulu and the finding of twenty-five cans of "dope" in the same vessel's engine-room while she was lying at Folsom-street dock some days ago has led to a revelation in the clever ways of the smuggler. The opium has been discovered to be of domestic manufacture, which shows that it was secured at this end of the line, and consequently some one employed on the vessel is suspected. In sending Foss to jail the Government was satisfied that it had not secured all "the gang," and it would now like to have a talk with a few of Foss's old partners.

When the Australia was lying at Honolulu the last time that she visited that port she was watched. News was brought by the steamer China that Port Surveyor Sanders of Honolulu received information from this city that there was a lot of opium on board.

No vessel was permitted to go alongside the Australia on account of quarantine regulations, but a small craft called the Lakelike was given permission to lay alongside for a few minutes.

Sanders became suspicious and obtained a permit to search the Lakelike. When he went on board he noticed Purser Poor of the little steamer acting in a suspicious manner. Poor was going under the wharf in a small boat. He answered a hail with the reply that he was leaving the steamer and had sent his clothes ashore.

Sanders secured a search warrant and went through Poor's house, but discovered no opium, but it is thought that a large consignment of the stuff was landed nevertheless.

SPECIAL ELECTION ORDERED.

The Voters of the Island of Hawaii to Elect a New Senator.

A special election has been ordered for the First Senatorial District, which is the whole of the island of Hawaii, for the purpose of electing a Senator to take the place of Charles Nottley, who resigned. The election will be held on January 6th, 1896.

Local news on inside pages as usual.

LATEST FOREIGN NEWS.

[Continued from 1st page.]

A dispatch from Buenos Ayres says: It is reported here that Brazil recognizes Cuban insurgents as belligerents.

The constitution of the Cuban revolutionary Government has been promulgated. It states that Cuba declared its independence from Spain and formed a democratic republic February 24, 1895. The Constitution provides that the supreme power shall be vested in a President, Vice-President and four Secretaries and defines their duties.

The World's Washington special says: The Spanish Government has acceded to the request of Secretary Olney, it is stated by very high authority, and has restored diplomatic functions to Consul-General Williams at Havana.

It is officially announced in Madrid that since the beginning of the campaign against the insurgents in Cuba the Spanish forces have lost one Brigadier-General, twenty-six superior officers, 159 other officers and 1811 soldiers, who have either died of disease or have been killed by the enemy.

UNITED STATES.

Four thousand invitations have been issued for the wedding of the Duke of Marlborough and Miss Vanderbilt. Not more than 300 invitations to the house will be issued for the wedding breakfast to be given by Mrs. W. K. Vanderbilt.

It is said the best legal talent in Arkansas holds that there is no law to prevent the prize fight. A test case is to be made out of a glove contest to decide the question. The Mexican consul at Laredo, Texas, says President Diaz would never consent to allow the Corbett-Fitzsimmons fight in Mexico.

The California Supreme Court convened at Los Angeles on the 16th.

It is claimed that the Alaskan boundary commission surveys tend to confirm the contentions of the United States. Mount Saint Elias has been located on the boundary of the two countries. General Duffield says there is no longer any doubt that all of the Yukon river basin below the mouth of Fry-Mile creek is American territory, which includes the gold fields of that stream as far as opened.

No confirmation has been received at the Korean legation in Washington of the death of the Queen. A dispatch from Seoul says that, in the confusion following the attack on the palace, rioters entered a bedroom and murdered three women, one of whom is supposed to have been the Queen of Korea.

The battleship Indiana has arrived at Boston for her official trip. In a preliminary run on the course she has averaged 15.31 knots an hour for two hours. She did not record a roll of even one degree, so that she has almost a stationary gun platform.

Train robbers in Texas wrecked a train but failed to open the express safe. No one was hurt and no booty was secured.

A freshman named Miller at the State college, Pa., stood off sophomores with a revolver when they tried to haze him.

The Durrant trial was postponed until last Monday on account of the sickness of Eugene Durrant, the defendant's leading counsel.

Enthusiastic Irishmen in San Francisco are forming a military company to aid the Cuban revolutionists.

In a free-for-all pacing race at Lexington, Kentucky, the pacer Robert J. took three straight heats in 2:05, 2:06 and 2:05.

Steamers making twenty-two knots an hour are to be put on the Sacramento and San Joaquin rivers to beat railroad time between San Francisco and Stockton.

The great Stanford case is to be appealed from the United States Circuit Court of Appeals to the Supreme Court of the United States.

John D. Rockefeller, America's richest man, is an enthusiastic cyclist, who constantly seeks to convert his friends to the sport. Last year he gave away twenty-two bicycles, and this year has already given away sixteen.

Michael Davitt, the Irish home rule statesman, is now on his way from Australia to America.

The horses Ka Moi and Lolokani were entered in an eleven-sixteenths of a mile race to take place at the Bay District track in San Francisco on the 14th.

Pope Leo has written a letter to the Catholic hierarchy of the United States, condemning the assembling of congresses of religion.

An ocean race is on between the American liner St. Louis and the White Star Majestic, the St. Louis having started four hours ahead of the Majestic on October 16.

A preference for resubmission of prohibition manifested by the Republican candidates for the Iowa Legislature has alarmed the friends of Senator Allison. They fear that it will hurt his chances for the presidential nomination.

The Commercial Bank at Tacoma has closed its doors. It hadn't ready cash to pay a demand of the city for \$63,000. Assets exceed liabilities.

A volcano is supposed to be in eruption in the Olympic mountains south of Port Townsend.

NARROW ESCAPE.

Rough Weather on the Kona Coast—Bennington Launch Upset.

While the U. S. S. Bennington was on the Kona coast, one of her steam launches was upset in the breakers. The officers and boat's crew on board had a close call for their lives. They were seen from the I. L. S. N. Co.'s steamer Waialeale, and First officer L. E. Atwater and a boat's crew went to their rescue. After the imperiled naval men were brought safely on board, the steam launch was righted by the hoisting machinery of the Waialeale.

The I. L. S. N. Co.'s steamer W. G. Hall encountered rough weather on the Kona coast on her latest trip. Two of her boats were upset, but fortunately without disastrous results.

THE HESPER MURDERERS.

They Were to Have Been Hung Last Friday.

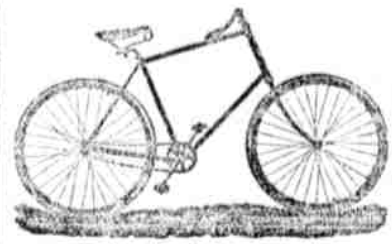

On October 7th President Cleveland positively declined to interfere with the course of justice in the case of Thomas St. Clair and Hans Hansen, the two brutal murderers of Mate Fitzgerald of the bark Hesper, and their execution was set for last Friday at San Quentin. Having been convicted in a United States Court the arrangements for the execution devolved upon Marshal Baldwin, but that official had the assistance of Warden Hale and the use of the mechanical appliances for the purpose at the San Quentin penitentiary. There were to be three electrical buttons pressed to work the drop, one man to each button, and no one was to know which completed the circuit that started the current through the wires.

Delaying the Mail.

The Call of the 16th says that Postmaster McCoppin is exceedingly wroth regarding the action of the Federal authorities in delaying the mails which arrived by the steamer China. He claims that while the mail matter from the Orient and particularly from Honolulu was certainly subject to fumigation, it should have been returned from Angel Island more promptly to avoid annoyance to merchants and others receiving valuable letters. He will investigate the matter and endeavor to have matters expedited in future.

Timely Topics

—ON THE—
MONARCH AND TRIBUNE.

The latest news concerning bicycles on the Coast is to the effect that wheels are becoming more popular than ever and that the trade in wheels is developing to an enormous extent.

Los Angeles wheelmen are having trouble with their pneumatic tires, as some evilly disposed person is scattering tacks in the city streets, but a few tacks more or less will not make much difference on Honolulu streets, for they are so full of holes into which the tacks would naturally drift that the wheels would bounce over them, holes and all. Everybody is using a bicycle, and the Monarch and Tribune are the wheels having the largest sales.

Bicycles are even coming into use at funerals, for we read that in a Wisconsin village recently a funeral procession was very largely made up of men and women on bicycles, the deceased having been a member of a bicycle club. It may seem a little odd at first to go to a funeral on a bicycle, especially in bloomers of the colors generally worn, but the time is coming in which the ladies will have appropriate bloomers. The Monarch Ladies' Wheel is the proper one for processions of all kinds; and not to have one is to get left in the rear.

An absent-minded Attleboro (Mass.) man left his bicycle in front of the postoffice in that town recently and walked home. The next morning he looked in vain for it in his barn, finally remembered where he had left it, and, going there, found it in the same spot where he had left it. The people of that town must have been equally as honest as those of Honolulu, and business must have been about as dull as it was here when the Board of Health put an embargo on business of all kinds and nearly stopped bicycle traffic.

But times are better now and we expect to sell about 500 wheels between now and Christmas. We have a large lot of Monarch and Tribune wheels on hand, racers, ladies' and children's wheels and a complete assortment to suit all sizes and conditions of men.

We shall receive by the bark S. N. Castle a fresh shipment of Monarch and Tribune wheels, bicycle lamps and fittings of all kinds, as well as a large consignment by the Australia on Monday. Call and see us after getting prices elsewhere.
